Early Stage Learning objectives: Early-Stage Program

Objectives:
- Describe the symptoms of the early stage of Alzheimer’s disease.
- Explain the legal, financial and resource planning that needs to be done in the early stage.
- Define the components of a care team and describe how to successfully work with each component during the early stage of the disease.

Early Stage

Part 1

Understanding dementia

- Dementia is a general term for a group of brain disorders that affect:
  - Thinking
  - Memory
  - Judgment
  - Personality
- There are different types of dementia, including:
  - Alzheimer’s disease
  - Vascular dementia
  - Mixed dementia
  - Dementia with Lewy bodies
  - Frontotemporal dementia
  - Parkinson’s disease

Understanding Alzheimer’s disease

- Alzheimer’s disease causes problems with:
  - Memory
  - Thinking
  - Behavior
- It is not a normal part of aging.
- Symptoms can vary among individuals.
- The disease leads to nerve cell death and tissue loss throughout the brain, affecting nearly all its functions.

Understanding Alzheimer’s disease

- Alzheimer’s disease has no cure.
- Behavioral and environmental interventions are most effective and should be tried first.
- Two types of medication treatments offer modest help:
  - Cholinesterase inhibitors
  - Memantine
- For more information, see the Alzheimer’s Association’s brochure, “The Basics of Alzheimer’s Disease”

You and the person with dementia

Care partner teams are more successful at navigating health care systems.
• Assist by:
  • Keeping a record of changes and questions to bring to doctors’ appointments
  • Being present at appointments, asking questions and taking notes

The care partner’s roles

A care partner has multiple roles:
• Encourager
• Companion
• Supporter
• Planner
• Money manager
• Advocate

Tips for coping with symptoms

Helping the person with dementia stay independent
• Use notes and calendars
• Stay organized
• Assist without offending

Tips for helping the person stay active

• Continue everyday tasks and routines to maintain sense of self
• Focus on unique strengths and interests
• Modify activities to match abilities
• Adapt activities over time
• Plan for rest periods
• Concentrate on the process, not on the result
Live in the present

Greg’s wife, Laura, has a diagnosis of Alzheimer’s disease.

Maintaining closeness and intimacy

Closeness can be enhanced by:
- Using loving words and physical touch
- Engaging in shared experiences that include touch
- Discussing issues directly
- Taking care of yourself and get support

Tips for coping

Your role is made easier by:
- Asking for and accepting help from others
- Sharing your feelings
- Listening without judging
- Communicating that you will be there
- Working as a team
- Experiencing moments together
- Determining what really matters
- Doing it now
- Redefining intimacy

Dementia Care Coaching
A telephone-based support program for caregivers that provides personalized information, resources, strategies and the creation of an action plan to help with decision making. Regular contacts with staff provide ongoing support over time to assist with the care of the person with Alzheimer’s or another form of dementia. Available in Spanish.

SHARE: Next Steps After Diagnosis
An in-person, six-session counseling program that empowers people living with early-stage dementia and their care partner to live full and rewarding lives as they adapt to the challenges of dementia. The program honors each person’s care values and preferences in order to build a strong network for support they can rely on now and in the future.

Early-Stage Services
Programs that provide education and support for individuals living with a memory and thinking disorder, their family members, and friends. Services include an in-person or over the phone consultation or monthly group meetings where participants learn about ways to effectively live with memory and thinking challenges.

Caregiver Support Groups
Monthly support groups throughout our five-county service area. Each group is facilitated by trained facilitators and provides information and support to individuals caring for someone with Alzheimer’s disease or a related dementia. Spanish-speaking support group available.

Social Engagement Programs
Monthly programs specifically designed to enrich the mind, body and soul of those with mild to moderate memory and thinking disorders and their loved ones. Minds in Motion programs offer a variety of experiences, including exercise, art, music, and cooking. Art in the Afternoon programs provide specialty art tours at the Cleveland Museum of Art.

Community & Online Education Programs
Regular programming provides comprehensive information on a variety of topics including how to understand Alzheimer’s disease and related dementias, communication tips, understand challenging behavior, addressing legal and financial issues, and many more. A current list of programs are posted on www.alz.org/cleveland. Some programs are presented in Spanish.

Professional Training Programs
Web-based trainings (CARES Training & essentiALZ Certification) available for staff working with those diagnosed with Alzheimer’s disease and other forms of dementia.
